Integrated Treatment for Co-Occurring Disorders-Sharon C. Eellsberry 2011-02-11 Integrated Treatment for Co-Occurring Disorders addresses a complex client population, which presents service providers with significant professional challenges. Underlying personality disorders compromise treatment effectiveness for medical, other psychiatric, or trauma services, as well as the ability these individuals have in adhering to probation, parole, or court-ordered treatment requirements. A co-occurring substance use disorder amplifies the difficulties experienced by personality-disordered individuals, exacerbates the precariously balanced nature of their treatment, and raises the skill level needed by service providers attempting to help them. There can be significant professional satisfaction in working effectively with the interplay of addiction and disorders of personality. Bothe books bring to the focus of assessment and treatment of personality disorders. This book presents a domain-specific approach to the treatment of personality disorders that results in greater adaptability, fewer self-sabotaging behaviors, and an easier lifestyle are all possible. Recovery from both disorders in the journey these individuals take toward greater maturity, reliable self-regulation, and coping skills that are not dependent upon the evasion of the demands or living up to their social or personal expectations.
